

PRO X20

2 BALANCED
ARMATURE
DRIVERS

PROFESSIONAL
IN-EAR MUSICIANS'
MONITORS

The Pro X redefines and elevates the UM Series with more efficient sound channels that provide cleaner and better frequency responses with the most ergonomic fit in the industry.

LOW **HIGH**

OVERVIEW:

The **Pro X20** features two proprietary balanced-armature drivers, with a two-way passive crossover. Developed to reproduce a large and enveloping sound, the Pro X20 has the range and output for any stage condition. The dual balanced-armature driver design delivers robust low end and crystal clear highs, with all the detail and nuance that professional musicians have come to expect from a Westone Audio in-ear monitor.

IDEAL FOR:

On-Stage Monitoring, Vocalists, Guitar Players, Keyboard Players, Drummers and Sound Engineers

TIPS: 3 Pair Foam + 3 Pair Silicone

ACCESSORIES:
Impact Resistant Monitor Vault

ERGONOMIC TECHNOLOGY

60 years of experience designing products for the ear, has resulted in a universal-fit earpiece that is compact, low-profile, lightweight, and extremely comfortable. Our proprietary eartips enhance the performance of the Pro X50 by ensuring a great fit and seal, right out of the box.

BALANCED-ARMATURE DRIVER

Westone Audio's proprietary balanced-armature drivers provide enhanced sonic detail and frequency range that extends well beyond other in-ear solutions.

ESTRON T2™ CONNECTOR

The clear twisted cable with Estron T2™ Connector System elevates sound quality, minimizes interference, and reduces cable noise, making it the perfect companion for artists seeking uncompromising audio excellence.

PRECISE ACOUSTIC SYMMETRY

Left and right earpiece responses are matched to an extraordinarily tight +/- 2dB tolerance. This extends well beyond typical in-ear solutions.

WHAT OTHERS ARE SAYING:

"The Pro X20 delivers lively sound with some extra bass emphasis making this model more suited to bassists and drummers who need a little more punch and dynamics." - Hifiheadphones.co.uk
